

At Summit Pipeline Services, safety is a core value and we believe that all incidents are preventable. We are committed to providing a safe and healthy work environment for all employees, stakeholders and subcontractors. Summit has a strong safety culture and we expect that all employees, stakeholders and subcontractors understand and adhere to our policies, procedures and safety values at all times.

The health and safety of our employees is of critical importance to the management team of Summit Pipeline Services and prevention of injury and occupational disease is our primary objective.

- Management recognizes and supports the right of all employees to work in a safe and healthy work environment.
- Project supervision will be responsible for the health and safety of workers under their supervision.
- Workers will be accountable for their safety performance and all Summit employees are responsible to ensure a safe and healthy workplace.

The elimination of incidents and injuries requires the full commitment of all employees to conduct their work safely and knowledgeably. Summit Pipeline Services will ensure this by providing all employees with required health and safety training, encouraging a healthy lifestyle, and promoting and cultivating a focused safety culture. All Summit employees must be in compliance with company, project and legislative requirements at all times.

2016 Targets & Objects:

The following Corporate Targets have been set for 2016:

Name	Description	2016 Target	2015 Results
Lost Time Injuries (LTI)	Total number of lost time injuries.	0	0
Total Recordable Incident Frequency (TRIF)	$\frac{(\text{recordable incidents}) \times 200,000}{(\text{total man hours})}$	0.75	0
Vehicle Incident Frequency (VIF)	$\frac{(\text{vehicle incidents}) \times 1,000,000}{(\text{total km driven})}$	1.08	0

Our primary goal is to eliminate all incidents and injuries in the workplace.
